To provide you and your baby with the best possible health care, we would like to know how things are going. Please answer all the questions. Thank you.

Check off each of the tasks that your baby is able to do.

- [ ] Stay awake for a short time to feed.
- [ ] Make brief eye contact with an adult when held.
- [ ] Cry when she is uncomfortable.
- [ ] Calm to an adult’s voice.
- [ ] Lift and turn his head to the side briefly when he is on his tummy.
- [ ] Move her arms and legs at the same time when startled.
- [ ] Keep his hands in a fist.
FIRST WEEK VISIT (3 TO 5 DAYS)

RISK ASSESSMENT

Vision  Do you have concerns about how your baby sees?  ○ No  ○ Yes  ○ Unsure

ANTICIPATORY GUIDANCE

How are things going for you, your baby, and your family?

YOUR FAMILY’S HEALTH AND WELL-BEING

Living Situation and Food Security

Is permanent housing a worry for you?  ○ No  ○ Yes
Do you have the things you need to take care of your baby, such as a crib, a car safety seat, and diapers?  ○ Yes  ○ No
Does your home have enough heat, hot water, and electricity?  ○ Yes  ○ No
Do you have health insurance for yourself?  ○ Yes  ○ No
Within the past 12 months, were you ever worried whether your food would run out before you got money to buy more?  ○ No  ○ Yes
Within the past 12 months, did the food you bought not last, and you did not have money to get more?  ○ No  ○ Yes
Do you need help in finding community support services, such as WIC or food stamps?  ○ No  ○ Yes

Family Support

Do you search the Internet to learn about how to care for your baby?  ○ No  ○ Yes

GETTING TO KNOW YOUR BABY

How You Are Feeling

Do you sleep when the baby sleeps?  ○ Yes  ○ No
Does your partner or do other family members help with the baby?  ○ Yes  ○ No
If you have other children, are you able to spend time with them?  ○ NA  ○ Yes  ○ No

CARING FOR YOUR BABY

Do you read to your baby?  ○ Yes  ○ No
Is a TV, computer, tablet, or smartphone on in the background when your baby is in the room?  ○ No  ○ Yes
Is your baby able to fully awaken for feedings?  ○ Yes  ○ No
Do you have questions about how to calm your baby?  ○ No  ○ Yes

When to Call Your Doctor/Emergency Planning

Do you know how to take your baby’s temperature rectally?  ○ Yes  ○ No
Do you have a list of emergency phone numbers?  ○ Yes  ○ No
Do you have any questions about taking your baby out in public places?  ○ No  ○ Yes

FEEDING YOUR BABY

General Information

Does your baby feed well?  ○ Yes  ○ No
Do you have any questions about how your baby is growing?  ○ No  ○ Yes
Are you having problems burping your baby?  ○ Yes  ○ No
Can you tell when your baby is hungry?  ○ Yes  ○ No
Can you tell when your baby is full?  ○ Yes  ○ No
Does your baby have 5 or 6 wet disposable diapers (or 6–8 cloth diapers) and 3 or 4 stools a day?  ○ Yes  ○ No
**FIRST WEEK VISIT (3 TO 5 DAYS)**

Consistent with Bright Futures: Guidelines for Health Supervision of Infants, Children, and Adolescents, 4th Edition
HOW YOUR FAMILY IS DOING
- If you are worried about your living or food situation, talk with us. Community agencies and programs such as WIC and SNAP can also provide information and assistance.
- Tobacco-free spaces keep children healthy. Don’t smoke or use e-cigarettes. Keep your home and car smoke-free.
- Take help from family and friends.

HOW YOU ARE FEELING
- Try to sleep or rest when your baby sleeps.
- Spend time with your other children.
- Keep up routines to help your family adjust to the new baby.

FEEDING YOUR BABY
- Feed your baby only breast milk or iron-fortified formula until he is about 6 months old.
- Feed your baby when he is hungry. Look for him to
  - Put his hand to his mouth.
  - Suck or root.
  - Fuss.
- Stop feeding when you see your baby is full. You can tell when he
  - Turns away
  - Closes his mouth
  - Relaxes his arms and hands
- Know that your baby is getting enough to eat if he has more than 5 wet diapers and at least 3 soft stools per day and is gaining weight appropriately.
- Hold your baby so you can look at each other while you feed him.
- Always hold the bottle. Never prop it.

If Breastfeeding
- Feed your baby on demand. Expect at least 8 to 12 feedings per day.
- A lactation consultant can give you information and support on how to breastfeed your baby and make you more comfortable.
- Begin giving your baby vitamin D drops (400 IU a day).
- Continue your prenatal vitamin with iron.
- Eat a healthy diet; avoid fish high in mercury.

If Formula Feeding
- Offer your baby 2 oz of formula every 2 to 3 hours. If he is still hungry, offer him more.

BABY CARE
- Sing, talk, and read to your baby; avoid TV and digital media.
- Help your baby wake for feeding by patting her, changing her diaper, and undressing her.
- Calm your baby by stroking her head or gently rocking her.
- Never hit or shake your baby.
- Take your baby's temperature with a rectal thermometer, not by ear or skin; a fever is a rectal temperature of 100.4°F/38.0°C or higher. Call us anytime if you have questions or concerns.
- Plan for emergencies: have a first aid kit, take first aid and infant CPR classes, and make a list of phone numbers.
- Wash your hands often.
- Avoid crowds and keep others from touching your baby without clean hands.
- Avoid sun exposure.

Helpful Resources: Smoking Quit Line: 800-784-8669 | Poison Help Line: 800-222-1222
Information About Car Safety Seats: www.safercar.gov/parents | Toll-free Auto Safety Hotline: 888-327-4236
**SAFETY**

- Use a rear-facing–only car safety seat in the back seat of all vehicles.
- Make sure your baby always stays in his car safety seat during travel. If he becomes fussy or needs to feed, stop the vehicle and take him out of his seat.
- Your baby’s safety depends on you. Always wear your lap and shoulder seat belt. Never drive after drinking alcohol or using drugs. Never text or use a cell phone while driving.
- Never leave your baby in the car alone. Start habits that prevent you from ever forgetting your baby in the car, such as putting your cell phone in the back seat.
- Always put your baby to sleep on his back in his own crib, not your bed.
  - Your baby should sleep in your room until he is at least 6 months old.
  - Make sure your baby’s crib or sleep surface meets the most recent safety guidelines.
- If you choose to use a mesh playpen, get one made after February 28, 2013.
- Swaddling should be used only with babies younger than 2 months.
- Prevent scalds or burns. Don’t drink hot liquids while holding your baby.
- Prevent tap water burns. Set the water heater so the temperature at the faucet is at or below 120°F /49°C.

**WHAT TO EXPECT AT YOUR BABY’S 1 MONTH VISIT**

**We will talk about**

- Taking care of your baby, your family, and yourself
- Promoting your health and recovery
- Feeding your baby and watching her grow
- Caring for and protecting your baby
- Keeping your baby safe at home and in the car
