To provide you and your child with the best possible health care, we would like to know how things are going. Please answer all the questions. Thank you.

**WHAT WOULD YOU LIKE TO TALK ABOUT TODAY?**

Do you have any concerns, questions, or problems that you would like to discuss today?  

- ☐ No  ☐ Yes, describe:

**TELL US ABOUT YOUR CHILD AND FAMILY.**

What excites or delights you most about your child?

Does your child have special health care needs?  

- ☐ No  ☐ Yes, describe:

Have there been major changes lately in your child’s or family’s life?  

- ☐ No  ☐ Yes, describe:

Have any of your child’s relatives developed new medical problems since your last visit?  

- ☐ No  ☐ Yes  ☐ Unsure  If yes or unsure, please describe:

Does your child live with anyone who smokes or spend time in places where people smoke or use e-cigarettes?  

- ☐ No  ☐ Yes  ☐ Unsure

**YOUR GROWING AND DEVELOPING CHILD**

Do you have specific concerns about your child’s development, learning, or behavior?  

- ☐ No  ☐ Yes, describe:

Check off each of the tasks that your child is able to do.

- ☐ Go to the bathroom and urinate by herself.
- ☐ Put on a coat, jacket, or shirt by himself.
- ☐ Eat by herself.
- ☐ Begin to play make-believe.
- ☐ Play and share with others.
- ☐ Use 3-word sentences.
- ☐ Speak so strangers can understand 75% of what he says.
- ☐ Tell you a story from a book or TV.
- ☐ Compare things using words such as bigger and shorter.
- ☐ Understand simple prepositions, such as on or under.
- ☐ Pedal a tricycle.
- ☐ Climb on and off a couch or chair.
- ☐ Jump forward.
- ☐ Draw a single circle.
- ☐ Draw a person with head and one other body part.
- ☐ Cut with child scissors.
### RISK ASSESSMENT

Well Child | 3 Year Visit

PHYSICAL EXAMINATION

Head: Normocephalic and atraumatic.

Ears, nose, mouth, and throat: Tympanic membranes with visible light reflex bilaterally. Healthy-appearing teeth without caries, plaque, discoloration, or breakage. No oral lesions or gingivitis.

Neck: Supple, with full range of motion and no significant adenopathy.

Heart: Regular rate and rhythm. No murmur.

Respiratory: Breath sounds clear bilaterally. Comfortable work of breathing.

Abdomen: Soft, with no palpable masses.

Genitourinary:
- Normal female external genitalia.
- Normal male external genitalia, with testes descended bilaterally.
- Musculoskeletal: Spine straight. Full range of motion.

Neurological: Normal gait. Speech clear and appropriate language for age.

Skin: Warm and well perfused. No lesions (atypical nevi, café-au-lait spots, or birthmarks) or bruising.

Other comments:

ASSESSMENT

Well child  □ Normal interval growth (See growth chart.)  □ Normal BMI percentile for age  □ Normal BP percentile for age  □ Age-appropriate development
## PLAN

### Immunizations:
- Vaccine Administration Record reviewed
- Administered today: ____________________________
- Up-to-date for age

### Universal Screening:
- Oral health: Fluoride varnish applied:  
  - Yes  
  - No: ____________  
- Oral fluoride supplementation:  
  - Yes  
  - No: ____________  
  - NA
- Vision: Result:  
  - Unable to complete  
  - Normal vision for age  
  - Abnormal: ____________

### Selective Screening (based on risk assessment) (See Previsit Questionnaire.):
- Anemia
- Hearing
- Lead
- Oral health
- Tuberculosis

**Comments/results:**

### Follow-up:
- Routine follow-up at 4 years
- Next visit: ____________
- Referral to: ____________

---

### ANTICIPATORY GUIDANCE

**SOCIAL DETERMINANTS OF HEALTH**
- Living situation and food security
- Tobacco, alcohol, and drug use
- Positive family interactions
- Work-life balance

**PLAYING WITH SIBLINGS AND PEERS**
- Play opportunities and interactive games
- Sibling relationships

**ENCOURAGING LITERACY ACTIVITIES**
- Reading, talking, and singing together
- Language development

**PROMOTING HEALTHY NUTRITION AND PHYSICAL ACTIVITY**
- Water, milk, and juice
- Nutritious foods
- Competence in motor skills and limits on inactivity

**SAFETY**
- Car safety seats
- Choking prevention
- Pedestrian safety and falls from windows
- Water safety
- Pets
- Gun safety

Consistent with Bright Futures: Guidelines for Health Supervision of Infants, Children, and Adolescents, 4th Edition

---

For Review and Reference Only
## HOW YOUR FAMILY IS DOING

- Take time for yourself and to be with your partner.
- Stay connected to friends, their personal interests, and work.
- Have regular playtimes and mealtimes together as a family.
- Give your child hugs. Show your child how much you love him.
- Show your child how to handle anger well—time alone, respectful talk, or being active. Stop hitting, biting, and fighting right away.
- Give your child the chance to make choices.
- Don’t smoke or use e-cigarettes. Keep your home and car smoke-free. Tobacco-free spaces keep children healthy.
- Don’t use alcohol or drugs.
- If you are worried about your living or food situation, talk with us. Community agencies and programs such as WIC and SNAP can also provide information and assistance.

## PLAYING WITH OTHERS

- Give your child a variety of toys for dressing up, make-believe, and imitation.
- Make sure your child has the chance to play with other preschoolers often. Playing with children who are the same age helps get your child ready for school.
- Help your child learn to take turns while playing games with other children.

## EATING HEALTHY AND BEING ACTIVE

- Give your child 16 to 24 oz of milk every day.
- Limit juice. It is not necessary. If you choose to serve juice, give no more than 4 oz a day of 100% juice and always serve it with a meal.
- Let your child have cool water when she is thirsty.
- Offer a variety of healthy foods and snacks, especially vegetables, fruits, and lean protein.
- Let your child decide how much to eat.
- Be sure your child is active at home and in preschool or child care.
- Apart from sleeping, children should not be inactive for longer than 1 hour at a time.
- Be active together as a family.
- Limit TV, tablet, or smartphone use to no more than 1 hour of high-quality programs each day.
- Be aware of what your child is watching.
- Don’t put a TV, computer, tablet, or smartphone in your child’s bedroom.
- Consider making a family media plan. It helps you make rules for media use and balance screen time with other activities, including exercise.

## READING AND TALKING WITH YOUR CHILD

- Read books, sing songs, and play rhyming games with your child each day.
- Use books as a way to talk together. Reading together and talking about a book’s story and pictures helps your child learn how to read.
- Look for ways to practice reading everywhere you go, such as stop signs, or labels and signs in the store.
- Ask your child questions about the story or pictures in books. Ask him to tell a part of the story.
- Ask your child specific questions about his day, friends, and activities.

**American Academy of Pediatrics**

**BRIGHT FUTURES HANDOUT ➤ PARENT**

**3 YEAR VISIT**

Here are some suggestions from Bright Futures experts that may be of value to your family.
WHAT TO EXPECT AT YOUR CHILD’S 4 YEAR VISIT

We will talk about

▪ Caring for your child, your family, and yourself
▪ Getting ready for school
▪ Eating healthy
▪ Promoting physical activity and limiting TV time
▪ Keeping your child safe at home, outside, and in the car

SAFETY

▪ Continue to use a car safety seat that is installed correctly in the back seat. The safest seat is one with a 5-point harness, not a booster seat.
▪ Prevent choking. Cut food into small pieces.
▪ Supervise all outdoor play, especially near streets and driveways.
▪ Never leave your child alone in the car, house, or yard.
▪ Keep your child within arm’s reach when she is near or in water. She should always wear a life jacket when on a boat.
▪ Teach your child to ask if it is OK to pet a dog or another animal before touching it.
▪ If it is necessary to keep a gun in your home, store it unloaded and locked with the ammunition locked separately.
▪ Ask if there are guns in homes where your child plays. If so, make sure they are stored safely.
