Was the test/cycle carried out as we planned?    Yes    No    If no, why not?

What did we observe that was not part of our plan?

How did we study and understand the result?

How did or didn't the outcome of this test/cycle agree with our expectation (prediction)?

What did we learn from this test/cycle?

**ACT: fill out after the test/cycle is completed**

Given the above understanding and learning, what are we going to do now?
